

[illegible]

Technical drawing showing a perspective view of a structure, possibly a bridge or a large architectural element, with a grid overlay. The drawing includes a dashed line indicating a path or boundary, and a small rectangular object (possibly a sign or marker) is visible on the structure.

| PRINCIPAL PARTICULARS       |                                                                                                                                        |
